--------------------------------	----------

0.11 | rivtbk Example

A rivtbk is a collection of rivt files with common subject matter that may be published as a PDF or text report. Files are organized for selective addition to rivt reports. Each chapter is contained within a folder with an identifying name.

```
bk1-chapter title
├── data/
├── img/
├── scripts/
└── rv001-book-chapter.py
```

A rivtbk chapter can be copied to a rivt report by copying the data, img and scripts folders to the rvsrc report folder and the rivt file to the rivt-report folder.
